

Parents SNHS Website

Within a busy PSHE schedule, dedicated careers lesson time is inevitably limited. The programme outline is listed on the main careers page along with useful websites.

How can parents / carers help support their child's career education:

Parents / carers can support their child in a number of ways:

- Take an interest in what your child / children have been learning about at school
- Discuss the soft skills that employers are looking for
- Talk about your own work and employment experiences and the skills used
- If possible, take your children to visit your workplace
- Explore together the range of opportunities available at each of the transition points (Year 9, 11 and 13)
- Support visiting open days / completing application forms
- Set small tasks such as planning an event / day out or budgeting
- Seek support from the school if your child needs it: careers@mynhs.net

Further Help and Support

- **Students all have a profile on careerpilot.co.uk which is invaluable for exploring future careers. Exploring this together can help crystallise ideas and spark interest.**
